

PRINTABLE RING SIZER CHART

OPTION 1: MEASURE A RING

To get an accurate finger size, make sure the inside of the ring lines up perfectly with one of the circles below. Please note: this sheet represents Australian ring sizes.

OPTION 2: MEASURE WITH RING SIZER

Cut around the ring sizer outline and cut a small slit on the dashed line at the top of the sizer. Slip the pointed end of the sizer through the slit, place your finger in the loop and pull so it fits well around the widest part of your finger. If the size falls between two letters, use the larger size.

OPTION 3: MEASURE YOUR FINGER

Using a piece of thread, paper or string, measure around your chosen finger.

Using the chart to the right, match up the measurement of your finger (the circumference of the inside of the ring) to a AUS finger size. Make sure the fit is snug and around the widest part of your finger.

If the measurement falls between two letters, use the larger size.

Ring Size	G	H	I	J	K	L	M	N
Circumference (mm)	45.5	46.8	48	48.7	50	51.2	52.5	53.8

O	P	Q	R	S	T	U	V	W	X	Y	Z
55.1	56.3	57.6	58.9	60.2	61.4	62.7	64	65.3	66.6	67.8	68.5

Have you printed to scale?
Measure this line with a ruler to ensure it is exactly 50mm. If not, ensure you are printing "Actual Size" or "100%".

50mm / 5cm
